Solutions³ appoints Mark Girimonte as Controller

Wyckoff, NJ – March 1, 2008 -- Solutions³, a premier IT Service Management solution provider, announced the appointment of Mark Girimonte as Controller. Mr. Girimonte's primary focus will be on the financial aspects of the business. Mr. Girimonte will report directly to Solutions³ Principal & Chief Technologist, Mike Battistella.

Mr. Girimonte, who received his CPA license from New York State in 1994, has ten years of experience in public accounting. In addition he has worked as a Corporate Tax Manager for the past ten years. He has also worked on special projects assisting the Chief Financial Officer. According to Mr. Girimonte, he is eagerly looking forward to this opportunity with Solutions³, and believes that there will be dynamic growth ahead for himself, the financial aspects of the company, and the entire organization.

"It's great to see that the organization has grown significantly enough over the last five years to warrant someone of Mark's caliber. It is also comforting to know that we can place the financial health and well being in the hands of an individual with such high character and integrity. Mark will guide our financial direction and be a great asset as the company continues to grow." said Mike Battistella, Principal & Chief Technologist of Solutions³.

Solutions³ is an award-winning consulting and training organization providing expertise in IT Service Management. Solutions³ believes a complete ITSM solution addresses the three key areas of IT: **People**, **Process**, and **Technology**. This three-dimensional approach ensures that all aspects of the solution function together effectively. Through a custom training approach, Solutions³ equips **people** with the knowledge and hands-on experience to effectively manage their IT solution. This enables businesses to increase service levels, decrease costs, and improve security through the use of ITIL® based **processes**. And, by implementing best of breed software **technology**, Solutions³ provides the IT management capabilities needed to create a complete solution. Its collaborative methodology coupled with highly qualified resources results in a project that is well-defined, clearly understood and supports its client's business objectives, adding to their overall success.
