FOR IMMEDIATE RELEASE

SOLUTIONS³ INTRODUCES NEW MONITORING SOLUTIONS

Wyckoff, NJ, October 31, 2008 – Looking for fast deployment of a comprehensive monitoring solution with among the lowest total cost of ownership (TCO) from a recognized leader in Enterprise Application Monitoring and Event Management? Solutions³ is pleased to announce the introduction of our family of HP SiteScope Service Offerings, each designed to meet your unique monitoring requirements in just days. Our Solution Architects each average more than 12 years of Business Service Management experience in Federal and Commercial accounts.

The offerings are:

1. SiteScope JumpStart – rapid deployment of SiteScope to manage simple environments
2. Application Monitoring Assessment – assess your monitoring requirements and establish a vendor neutral strategy for monitoring and managing your application environment
3. SiteScope Baseline – full lifecycle efforts to plan and implement a production monitoring solution as well as proven training to establish the solution in your organization
4. SiteScope Support – regularly scheduled visits to monitor, manage, and customize your SiteScope deployment
5. SiteScope Upgrade – bring your existing environment and management techniques up to date

Whatever your monitoring needs, Solutions³ has a service package perfectly designed for your environment and budget to ensure you achieve your goals with a rapid return on investment (ROI) delivering business results.

Solutions³ is an award-winning premier consulting and training organization providing expertise in IT Service Management. Solutions³ believes a complete ITSM solution addresses the three key areas of IT: **People**, **Process**, and **Technology**. This three-dimensional approach ensures that all aspects of the solution function together effectively. Through a custom training approach, Solutions³ equips **people** with the knowledge and hands-on experience to effectively manage their IT solution. This enables businesses to increase service levels, decrease costs, and improve security through the use of ITIL® based **processes**. And, by implementing best of breed software **technology**, Solutions³ provides the IT management capabilities needed to create a complete solution. Its collaborative methodology coupled with highly qualified resources results in a project that is well-defined, clearly understood and supports its client's business objectives, adding to their overall success.
